

KEYNOTE SPEAKER

Roland Slee
Vice President, Banking Solutions
Oracle Corporation
Financial Services Global Business Unit

Roland Slee is Vice President of Banking Solutions within Oracle's Financial Services Global Business Unit. He has responsibility for leading sales of enterprise software solutions to banking industry clients across Asia Pacific. Oracle Corporation is the world's largest enterprise software company with more than 80,000 employees and revenues in excess of \$22 billion.

Mr. Slee began his career at Andersen Consulting and worked in Australia, Belgium and the UK before joining Oracle Corporation in London in 1993. In more than fifteen years with Oracle he has held positions in consulting, sales and management in Europe and Asia Pacific. He has extensive experience in Financial Services including Banking, Insurance and capital Markets. Immediately prior to this appointment Mr Slee spent three years leading Oracle's Fusion Middleware business across Asia Pacific.

In addition to his work at Oracle, Mr. Slee is also a director of the Australian Cooperative Research Centre for Spatial Information and a member of the External Advisory Committee to the Faculty of Information Technology at The University of Technology Sydney. He holds a Bachelor's Degree in Mechanical Engineering from the University of Sydney.

KEYNOTE ADDRESS

Accelerating the Pace of Innovation - An Oracle Strategy Update

Oracle is continuing to accelerate the pace of innovation through an active program of acquisitions and far-reaching internal developments. Roland Slee will provide an update on Oracle's business strategy covering product directions, customer successes and partnering opportunities. This presentation will cover both applications and technology but with an emphasis on middleware and database solutions.
